Mean: mean number of days in the last 30 days for which the respondent's physical health was not good, based on the question: "How many days in the past 30 days would you say that your physical health was not good?"

LCL Mean = Lower 95% confidence level of mean, based on the weighted number.

UCL Mean = Upper 95% confidence level of mean, based on the weighted number.

All means are weighted to be more representative of the population of Maine and to adjust for non-response.
